## Sciton JOULE™

### HALO™

Over the years sun exposure and the wear and tear of everyday living may have resulted in the visible signs of aging such as sunspots, fine lines, and loss of your natural healthy glow. HALO uses laser technology to eliminate years of damage. The laser triggers your body's natural healing response revealing the luminous glow you had when you were younger.

### Get the Glow with HALO™

- Customizable treatments to precisely target skin damage and the visible signs of aging
- Improvement in the appearance of wrinkles, sun damage, and enlarged pores
- Personalized treatment plans to meet your lifestyle needs

### Great Results with Minimal Downtime

In the past, you had to choose between a procedure that offered really great results but required a lengthy recovery, or a procedure with a fast recovery but marginal results. Now with HALO you get the best of both worlds: great results with minimal downtime. HALO combines deep dermal revitalization with epidermal renewal for a combined synergistic effect you can't get with any other treatment. HALO creates beautiful results without the downtime of more aggressive treatments.

**HALO** precisely targets years of damage to your skin, including wrinkles, discoloration, sun damage, visible signs of aging, enlarged pores and poor skin appearance. You'll see initial results almost immediately with continued improvement over time. Even better, with a proper skin maintenance regimen your HALO results will last for years to come.
